

ORION 3 AL4150

Optimum Reflector System Patent No. 1151226

Benefits

- A truly flat glass option to go with the great looks of the Orion family. Despite the marginal reduction in illuminance levels, in comparison to the Orion 2, it is the ideal combination of high performance and 0% upward light (ULOR)
- You'll need fewer lighting points, thanks to the efficiency and uniformity of square illuminance distribution
- Fewer lighting points mean you save on installation and maintenance costs – there'll be less cable, gear, lamp replacement, power consumption and waste

Features

- High performance Optimum Reflector System is highly polished and anodised aluminium, producing a square illuminance distribution at ground level
- UV stabilised clear polycarbonate flat bowl
- Canopy in ABS Plastics, available in white as standard with black and dark silver/grey available on request but may carry a surcharge
- 76mm entry diameter spigot in cast aluminium, available in colours to match the canopy

- Available with single lamp up to 400W SON or 450W metal halide. Integral control gear
- Two lamp type options: high pressure sodium or metal halide
- Four lamp size options: 150W up to 450W (450W on metal halide only)
- Option of an internal shield to give asymmetric distribution and backward overspill control
- GORE™ membrane breather equalises internal pressure
- Removable gear tray with plug and socket connection, ensuring class 1
- Pre-flexed option to cut down on installation time and costs

Applications

- Retail and leisure car parks
- Large area lighting

Lighting distribution

Square. Asymmetric (using optional internal shield)

Colours

- RAL9003 White (standard)
- RAL9007 Gunmetal
- RAL9005 Black

Gunmetal and Black are available on request and at extra cost.

Spotlight on Orion 3

The Orion 3 brings you even more choice within our best-selling Orion series. The Orion 3 lantern shares the same reflector system heritage as the original Orion. For projects where low light pollution is essential, the Orion 3 has a flat polycarbonate bowl that complies with environment zone E1. Also available with a twin arm option – BKTD.AM2.
